Title

Make sure to remove the layout template from your print file!!!

In order to avoid white streaks, keep the background colour in the punch area. This will keep the layout colours to the edge after punching. Safety distance around the window edge: 10 mm Corner radius: 4 mm

Back

Bleed: at least 1 mm

Elements that extend to the edge of the page require a bleed addition. This area is trimmed during further processing.

Open trimbox:

257 × 267 mm

— Trim line

- - - Creasing line

Colour-free/unprinted area for gluing

--- Production tolerances possible (do not place texts or important elements here)

69 mm

Safety distance: at least 5 mm

Important text and image elements should have a safety distance to the final format and to the cutting or creasing lines due to production tolerances.

108 mm

This area is covered by the adhesive strip when closed. Only place a background here - do not place any texts / logos or important elements in this area.

21 mm
