BleedBox: minimum 10 mm

Please set bleedbox to 10 mm in your print file. Thise 10 mm will be cut away after printing.

TrimBox:

850 x 2250 mm

Margins: minimum 5 mm

No important texts or images should be placed outside margins set inside the TrimBox. If possible, avoid placing important elements where trimming / folding occurs due to manufacturing tolerances.

Working area:

This part of the print is hidden in the cassette and will not be visible after installation.

Make sure to remove this layout template from your print file!
