

Adhesive strip

31 mm

250 mm (bleedbox)

248 mm (open trimbox)

220 mm (trimbox)

Title

In order to avoid white streaks, keep the background colour in the punch area. This will keep the layout colours to the edge after punching. Safety distance around the window edge: 10 mm Corner radius: 4 mm

Make sure to remove the layout template from your print file!!!

Back

Bleed: at least 1 mm

Elements that extend to the edge of the page require a bleed addition. This area is trimmed during further processing.

Safety distance: at least 5 mm

Important text and image elements should have a safety distance to the final format and to the cutting or creasing lines due to production tolerances.

Open trimbox:

248 × 236 mm

— Trim line

- - - Creasing line

■ Colour-free/unprinted area for gluing

- - - Production tolerances possible

(do not place texts or important elements here)

95 mm

This area is covered by the adhesive strip when closed. Only place a background here - do not place any texts / logos or important elements in this area.

16 mm
