Ø 111 mm (BleedBox)

Ø 107 mm (TrimBox)

Bleed: minimum 2 mm

Parts of your project that are designed up to the edge of the
page need to be extended into bleed. This area is cut off during
the manufacturing.

Open trimbox:
107 x 107 mm

Margins: minimum 3 mm

It is recommended that no important texts or images are placed
outside the inner margins set inside the TrimBox as well as out
of the folding lines due to manufacturing tolerances.

—— **Die cut**
